

IUOE Supports Site Safety Efforts

The International Union of Operating Engineers General President Vincent J. Giblin encourages all Operating Engineers to follow the site safety rules:

Vincent J. Giblin
General President

- *Wear respirators in the zone, particularly on or within 25 feet from the pile.
- * Wear safety glasses and safety shoes at all times.
- * Wear your hard hat every time you exit your equipment.
- * Don't eat, drink, or smoke on or near the pile.
- * Wash hands, face and boots when leaving the site.
- * Clean your respirator daily and keep it in a sealed bag off site.

The IUOE Emergency Management Team has measured the hazards

PROTECT YOURSELF

Personal Protective Equipment is available from the IUOE Hazmat Emergency Management Team distribution unit located at the corner of West and Murray Streets.

Personal Protective Equipment available includes:

- * Half-mask air purifying respirators and combination (HEPA/ organic vapor/acid gas) cartridges
- * Hard hats
- * Safety glasses
- * Hearing protection
- * Gloves
- * Safety boots
- * Tyvek® suits

You can also obtain additional safety and health information at the IUOE Hazmat Emergency Management Team distribution unit.
